

CARRY YOUR DRINKS WITH EASE. GO HANDS-FREE

100% biodegradable.
100% compostable.
Zero hands required.

THE NEW, EASY WAY TO CARRY DRINKS

- **Space-Saving:** Bulky pulp and cardboard carriers take up tons of space and often require two hands. Our cup carriers are lightweight, easy to maneuver, and take no time to assemble.
- **Cost-Saving:** 4 slot cup carriers are a waste of money, especially when customers typically only use them for 2 or 3 cups.
- **Customizable:** Make our cup carrier yours by customizing them with any brand, logo or color.
- **Strong & Tear-Resistant:** Made with high-quality spunlace cotton, each carrier is durable and holds up to 19lbs.

LOOK GOOD WHILE HELPING THE PLANET

- **Eco-Friendly:** Made exclusively using spunlace cotton, our patented cup carrier is 100% biodegradable, compostable, and recyclable.
- **Photo-Worthy:** Show off innovative design and give everyone something sustainable to talk about.

HOW TO ASSEMBLE: PLACE YOUR CUP IN THE CENTER OF A FLAT CARRIER. THEN, SIMPLY PULL OPPOSITE EDGES UPWARDS

| SKU | UPC | Carriers/Carton | Packs/Carton | Pallet Qty | Weight (lbs) | Case L x W x H (in) | Case Cube | Ti | Hi |
|--------|------------|-----------------|--------------|------------|--------------|---------------------|-----------|----|----|
