

SOFi

THE NEW WAY TO DRINK RESPONSIBLY

SOFi Straws are manufactured in a unique process that creates the strongest and longest-lasting paper straws on the market.

MOST PAPER STRAWS BECOME FLIMSY AFTER MINUTES OF USING THEM. I LEFT THIS STRAW IN MY CUP OVERNIGHT AND I SWEAR BY THE NEXT MORNING, 12 HOURS LATER IT WAS STILL FULLY INTACT. HIGHLY RECCOMEND!"

- Amazon Customer Review

LONG-LASTING. PAPERLESS TASTE.

- Do not get soggy or fall apart in your drink
- Last in liquid for hours, even overnight!

100% BIODEGRADABLE. HOME & INDUSTRIAL COMPOSTABLE.

- Decompose naturally in landfills, soil or marine environments in less than 90 days.
- Bioplastics must be sent to an industrial composting facility to properly decompose. When discarded with normal trash, they act no differently than regular plastic in a landfill, soil or marine environment.
